

Dear Client

Yes it is that time of the year again . . . tax time 2008!

Before talking tax I would like to quickly update you on the happenings at JSA Accounting. As you may know we have been operating out of 2 buildings on Hillier Road for the last year or so. In May this year, we decided it was time to consolidate into one building so you will now find all of us in the one building at **62 Hillier Road, Reynella**. Although we only needed to move next door there was a huge amount of work involved but we are now settled and enjoying being in new (for some of us) surroundings. So, for your tax appointment, please come to our office at **62 Hillier Road**.

Once again, we have enclosed our checklist envelope. Please use this envelope to collate your relevant tax documents. Deductions can only be claimed if the expense can be substantiated with receipts or other required substantiation records such as log books for car expenses and diaries for home office use, interstate and overseas travel.

If you do not have time to attend an appointment with one of our professional staff, please use our envelope to collate your information and post it or deliver it to our office for the preparation and lodgment of your tax return. Please note:- You will need to put our checklist envelope into another envelope addressed to JSA Accounting, otherwise we may not receive your information.

Did you know that we can suspend the lodgment of your tax return to delay the payment of any tax payable? So, if you usually leave it to the last minute to have your tax return prepared to delay the payment of your tax liability, you can in fact have us prepare your tax return early in the financial year, and we can defer lodgment until the 2009 year (for the majority of clients). By having your return prepared early, we can let you know the amount payable and the approximate due date for payment allowing you to budget for this payment over a longer period of time.

We have enclosed an information sheet setting out the change of tax rates, rebates and thresholds.

We can be your financial planner

As you know we are a franchise of Count Financial Limited and accordingly we are able to provide a comprehensive financial planning service including the establishment of a financial plan and investment advice, life insurance and income protection, home and investment loans, budgeting advice, and savings plans.

For more information about the 2008 tax season, we strongly encourage you to view our website at www.jsaccounting.com.au

Appointment Times

For the months of July, August and September we will be offering a limited number of after hours appointments on Thursday nights and Saturdays with staff working on a roster system. If you would like an after hours appointment, we suggest you book early as there are only a limited number of after hours appointments available.

We look forward to seeing you again this year.

Robert L Julian
Director
